WHY MAGISTA SYSTEMS?

CUSTOM DESIGN AND MATERIALS

Magista cabinets fit into any space and situation. With a wide range of dimensions and finishes, you can configure each cabinet entirely to your requirements.

CUSTOMER-FOCUSED, END-TO-END SOLUTION

Whatever your requirements, Magista has the solution. We'll work with you, offer expert advice, and ensure that the cabinet integrates seamlessly into your space.

QUALITY & SUSTAINABILITY

All our cabinets and processes meet strict quality standards. Magista is ISO 9001 certified and our products carry recognised quality marks.

All configurations and accessories are made from high-grade, fully recyclable steel. They are acid-free and emission-free, finished with environmentally responsible coatings, and developed with continuous product improvement in mind.

SYSTEMS

THE SYSTEM

MAGISTA FILING CABINETS

Compact, Flex, Plano and Standard

Configure the cabinets entirely to your requirements. Magista filing cabinets are specifically designed to protect your belongings in the best possible way.

Dustproof & airtight

Magista filing cabinets provide optimal protection for your belongings. The robust construction keeps dust out and can be supplied in an airtight configuration if required. Doors open through 180 degrees and close with a reliable two-point locking system to ensure safety and hygiene at all times.

Flexible Application

Configure the cabinets entirely to your requirements. Choose from a wide range of dimensions, colours, door types, and finishes. We offer suitable solutions for workshops, warehouses, laboratories, or offices.

Door options

Choose steel hinged doors for maximum robustness, or opt for glass doors to combine security with immediate visual access and a modern appearance.

Four variants

The range comprises four models, each with its own strengths:

- Compact: practical and space efficient
- Flex: flexible application thanks to the adjustable plinth frame
- Plano: clear and well organised plan cabinet with flexible plinth frame
- Standard: reliable plan cabinet in fixed sizes

Find out which Magista filing cabinet suits your situation and experience the convenience of custom designs.

GLASS DOORS

SOLID DOORS

MAGISTA CABINET COMPACT - SPECIFICATIONS

The Compact model features a fixed base and a flexible upper section that can be fully configured to your requirements. Choose side panels in various sizes and drawers in multiple heights. This allows you to store your materials, documents, and accessories in a clear and organised manner. Whether you opt for a closed or open cabinet, the design remains functional, clean, and timeless.

COMPACT

DRAWERS IN VARIOUS HEIGHTS

MG32 AND MG40 SHELF

FLEX - CABINET SYSTEM SPECIFICATIONS

Model 201 can be configured entirely to your requirements.

Thanks to the flexible plinth frame, this filing cabinet integrates seamlessly with your situation. This also makes it easy to add the cabinet to existing workstations or furniture from other suppliers. The side panels and drawers are available in multiple heights, allowing you to create the most efficient storage layout for your belongings. Whether you choose an open design with glass doors or prefer everything to be kept out of sight, this Magista filing cabinet remains functional, clean, and timeless.

Side panel dimensions:

- Height: 900 - 2400 mm (in steps of 100 mm)
- Depth: 400 - 800 mm (in steps of 100 mm))

Base cabinet dimensions (Bare frame without contents, on the right):

- Top panel thickness: 25 mm as standard
- Plinth height: variable and compatible with existing furniture
- Cabinet width: 1045, 1295 or 1545 mm
- Adjustable shelves (MG40): in steps of 25 mm
 - Supplied with a solid rear panel

- 500 mm
- 600 mm
- 700 mm
- 800 mm

The base makes the difference:

Model Flex features a flexible plinth frame that allows the height of the filing cabinet to be adjusted easily. This enables seamless integration with existing workstations or furniture from other suppliers. This model is supplied exclusively in a low-dust configuration. The Compact model has a fixed plinth enclosure, which provides a solid and standardised configuration. This model is available in both airtight and low-dust versions, making the filing cabinet suitable for use in external climate cabinets. Thanks to the adjustable height, the Flex model is particularly suitable for situations where custom design or integration with existing interiors is required. The Compact model is a robust, standardised solution, with the option of either airtight or low-dust configurations for climate control purposes.

COMPACT: FIXED SUBFRAME

FLEX: FLEXIBLE SUBFRAME

**Comparative overview:
Compact vs Flex Cabinet
System**

A STRONG FOUNDATION

PLAN CABINET AO

Model 301 can be configured entirely to your requirements. Thanks to the flexible plinth frame, this filing cabinet integrates seamlessly with your situation. This also makes it easy to add the cabinet to existing workstations or furniture from other suppliers. The side panels and drawers with open fronts are available in multiple depth options. Whether you choose an open design with glass doors or prefer everything to be kept out of sight, this Magista filing cabinet remains functional, clean, and timeless.

Side panel dimensions:

- Height: 1700 - 2400 mm (in steps of 100 mm)
- Depth: 872, 1072, 1272 mm (in steps of 100 mm)

Base cabinet dimensions (Bare frame without contents, on the right):

- Plinth height: variable and compatible with existing furniture
- Cabinet width: 1070, 1370 and 1570 mm
- Adjustable shelves (MG40): in steps of 25 mm
- Supplied with a solid rear panel

COMPLETELY CUSTOMISABLE

This model also offers maximum flexibility. The base is supplied as standard and can be expanded as required with a range of internal configuration options. The example shown features a base cabinet with shelf and practical A0 drawers, ideal for the clear and organised storage of large-format documents.

OPTIONAL ACCESSORIES:

- SOLID DOORS OPENING THROUGH 180° AND A TWO-POINT LOCKING SYSTEM
- GLASS DOORS OPENING THROUGH 180° AND A TWO-POINT LOCKING SYSTEM
- DOORS WITH OR WITHOUT VENTILATION
- AVAILABLE IN A DUST-TIGHT CONFIGURATION
- TWO-POINT LOCKING SYSTEM

DRAWER HEIGHTS (OPEN FRONT):

- 75 MM
- OTHER SIZES AVAILABLE ON REQUEST

DRAWER RUNNER DEPTH (FULLY EXTENDABLE):

- 800 MM
- 1010 MM
- 1210 MM
- OTHER SIZES AVAILABLE ON REQUEST
- 600 MM
- 700 MM
- 800 MM
- 900 MM

STANDARD MODEL – A0 PLAN CABINET

This model is built from standard elements and can be configured entirely to your requirements. Thanks to the various side panel and drawer depth options, you can always create the most efficient storage layout. Like all Magista plan filing cabinets, this model combines functionality with a clean and timeless design.

Features and dimensions:

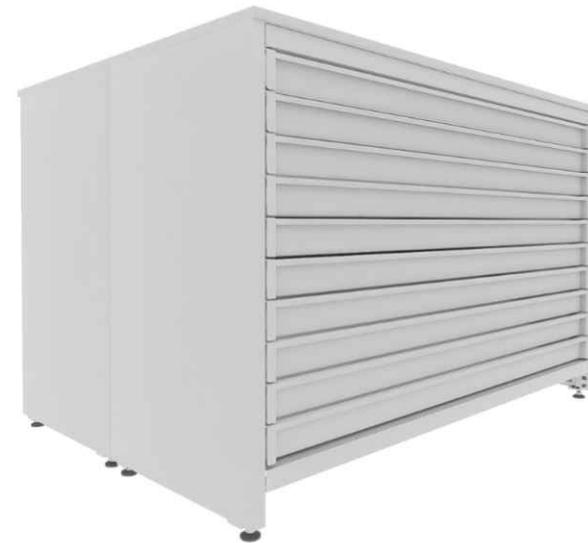

- Height: 900 - 2400 mm (in steps of 100 mm)
- Depth: 1040 - 1240 mm (in steps of 100 mm)
- Width: 1440 mm
- Drawer height: from 75 mm (other sizes available on request)
- Fully extendable drawer runners: 1010 / 1110 / 1210 mm (other options available on request)

Optional accessories:

- Locks
- Finish available in all standard RAL base colours (special colours available on request)
- Wooden top panel available in various colours, patterns, and HPL finishes available on request

STANDARD

This model has enclosed and connected side panels and features adjustable feet at the base. This keeps the filing cabinet stable and level at all times, even on less even floors. Like the other models, this plan filing cabinet can be configured entirely to your requirements and provides a durable, timeless solution for efficient storage.

INFORMATION & OPTIONS ON REQUEST

ROBUST AND FLEXIBLE DOOR FRAME CONSTRUCTION

Magista equips every filing cabinet with a welded door frame construction for optimal stability and durability. The side frames feature perforations spaced 25 mm apart, making it easy to reposition shelves and accessories. Thanks to this useful feature, you can always adapt your filing cabinet as your requirements change.

SHELF SUPPORT TWEETY

SHELF SUPPORT VINKY

KEEP EVERYTHING CLEARLY ORGANISED... IN FULLY EXTENDABLE DRAWERS

Magista filing cabinets can be equipped with fully extendable drawers. These drawers are available in heights from 25 to 200 mm and support loads of up to 80 kg per drawer. The raised edges keep the contents neatly in place. Standard depth options are 500, 600, 800, and 1000 mm.

PULL-OUT PLATFORM

INFORMATION

FLEXIBLE STORAGE FOR TEXTILE ROLLS

Magista filing cabinets can be fitted with a practical system for textile rolls. The rolls are supported in pull out frames, and the brackets can be added or repositioned as required. Ideal for smaller rolls, while offering maximum flexibility.

LOCKING SYSTEM: TWO-POINT

Assembly and combination options

Magista filing cabinets are designed to adapt effortlessly to any space and storage requirement. You can opt for a single filing cabinet or connect multiple filing cabinets into a single integrated system. Thanks to the various width, depth, and configuration options, a tailored solution is always available. Choose solid or glass doors, drawers, or shelves. You can even tailor our cabinets to your organisation, choosing a layout, finish and colour that suits you. The result is a piece of furniture that is not only practical, but also perfectly aligned with the character of the space.
